

Do it:

Count in 2s

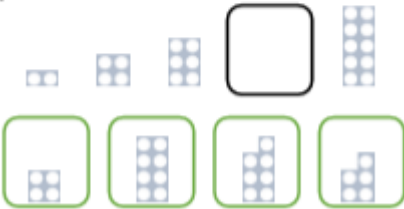

1a. Count the cherries in 2s.

How many cherries are there in total?

★

2a. Which number completes the sequence?

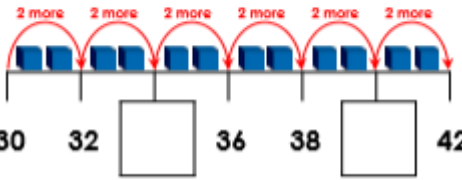

★

| | | | | | | | | |
|---|---|---|---|---|----|----|----|----|
| 0 | 2 | 4 | 6 | 8 | 10 | 12 | 14 | 16 |
|---|---|---|---|---|----|----|----|----|

VF

3a. Complete the number line by counting in 2s.

★

4a. Complete the sequences by counting in 2s.

A. 10, __, 14, 16, 18

B. 24, 26, __, 30, __

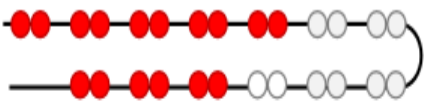

C. 16, __, 20, 22, __

| | | | | | | | | | | | | |
|----|----|----|----|----|----|----|----|----|----|----|----|----|
| 10 | 12 | 14 | 16 | 18 | 20 | 22 | 24 | 26 | 28 | 30 | 32 | 34 |
|----|----|----|----|----|----|----|----|----|----|----|----|----|

★

VF

Twist it:

There are 13 beads in total.

Is Neo correct? Prove it.

★

| | | | | | | | | | |
|----|----|----|----|----|----|----|----|----|----|
| 20 | 22 | 24 | 26 | 28 | 30 | 32 | 34 | 36 | 38 |
|----|----|----|----|----|----|----|----|----|----|

R

Deepen it:

 **Greater Depth Challenge:**

If I start at 0 and count in 2s, will I say any of these numbers: 27, 11, 16?

Explain how you know.

What other numbers between 10 and 30 would you not say?
